We have completed our review of documents at Industrial Hygiene. Attached hereto is a general listing of the categories of documents which you have in fiche and hard copy in your department. Of course, it must now be decided what, if any, of these files should be discarded. I would appreciate it very much if you would advise me of your opinion as to what files should be continued to be maintained by your department and which files you feel could and should be destroyed. Please inform me of your reasons for your conclusions in as much detail as possible.

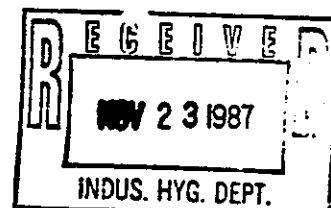

Please give me a call at your earliest convenience so that we can discuss this matter further. Thank you very much for your assistance.
