Interoffice Communication

To Sid Pitts
From J. A. DeBernardi
Date December 24, 1980
Subject OSHA Inspection Guidelines

As requested in Tom Grumbles' letter of December 15, 1980 on the subject I have attached my comments related to the proposed guidelines. If you have questions, please give me a call.

A handwritten signature in dark ink, appearing to read "J. A. DeBernardi", with a long horizontal flourish extending to the right.

PROPOSAL: OSHA INSPECTION GUIDELINES

AFFIRMATIVE X

NEGATIVE _____

NOT VOTING _____

COMMENTS: Suggest that more than one legal contact be included in appropriate places in
guidelines and that they be listed in order in which they should be called. The statements
made in paragraph I on page 4 and paragraph K on page 5 appear to be in conflict with
each other. Suggest that Conoco personnel to be present at opening conference and closing
conference be added to these sections. Paragraph E beginning on page 9 doesn't make sense.
Paragraph F on page 10 infers OSHA cannot monitor personnel exposure, is this correct ?
I think the guidelines are a good move and need documentation and distribution.
