

Copy for label to be affixed on page 13
of VCM manual, form A994-115R IM 375.

July, 1975

CAUTION

The chemical cartridge respirator shown in the photograph on this page, also in the photographs on pages 20 and 24, is no longer in use at the vinyl chloride monomer handling facilities of PPG Industries. PPG does not recommend this mask for respiratory protection in the use, storage or handling of vinyl chloride monomer.

NOTICE

The PPG work practice guidelines described on pages 14, 15, 16 and 17 may not be applicable to the vinyl chloride monomer operations of individual customers. PPG recommends that customers develop work practice guidelines specifically designed for their individual operations.
