when I mentioned Silvina's participation at EPA HQ to the Group, I got some strong negative body language. I followed up. Apparently she and Rene Fuentes (spelling?) were heavily involved with writing the FS when that was taken over by EPA and in writing the ROD and so are viewed by the Group as likely to be protective of their work product and as a direct pipeline back to the Region 10 people that they worked with on this. Not sure there is anything to be done but just need to be aware.
