April 29, 1959

Mr. Harold J. Gibson
Ethyl Corporation
1600 West Eight Mile Drive
Ferndale 20
Detroit, Michigan

Dear Harold:

I have just received the copy of Mr. H. E. Hesselberg's memorandum to you of April 23, 1959, subject California Research Corporation Cooperative Program, which was attached to a copy of your memorandum to Mr. L. L. Huxtable of April 24, 1959.

In the description of the three phases of the test program given in Mr. Hesselberg's memorandum, he did not include a statement saying that the lead exposure and elimination of the individuals involved in blending, loading and transportation of the Phase 1 and 2 gasolines would also be determined. These are the same people who will be involved in Phase 3 and so background of exposure and elimination are also necessary for them.

Sincerely,
