Brad,

Thank you for your inquiry. Yes, a report to Administrator Pruitt has been generated, but is internal and deliberative at this time.

All the Best,  
Samantha

Associate Administrator Dravis,

I write from Argive, a Silicon Valley 501c3 focused on facilitating transparency and efficiency in regulatory policy. I am looking for updated information regarding [this EPA page](#) on regulatory reform.

Specifically, I have been unable to find an update regarding the [EO13777](#) goal of providing a report on progress in identifying regulations to the agency head. Has the Environmental Protection Agency's Regulatory Reform Task Force generated such a report, and is it publicly available?

Any assistance or direction is appreciated.

Thank you,

Brad Hakes
