

Sept. 26, 1942.

Dr. Kehoe
Dept. of Biochemistry
U. of Cincinnati

Dear Sir:

at the station to which I am reporting for duty in industrial hygiene, there is reported to be exposure of as high as 7 mg/cu. ft. of lead exposure for short periods of time. Dr. Flinn of Columbia U. suggested giving you for information as to acute and chronic lead poisoning. Information or references to literature will be appreciated.

My address for the next two weeks will be 1855 Sniller St., Little Rock, Ark.

Roland E. Byrd
Engr. H-V(6), USNR.
