

Class I and II Well Inspection Form US Environmental Protection Agency – Region 4 Underground Injection Control Program 61 Forsyth Street SW, MC 9T25, Atlanta, Georgia, 30303 Phone: (404)562-9424					Inspection ID	EPA Well ID#: F L S 1 1 3 0 0 7 2																																																																														
						Year-Month-Day: 2 0 2 3 - 0 3 - 2 8																																																																														
						EPA Permit # (or RA): F L I 0 0 3 8																																																																														
						Page 1 Of 2																																																																														
Inspector(s): Carl E. Weller (lead), Carol Chen Start Time: 11:32 am																																																																																				
End Time: 11:39 am																																																																																				
Facility Contact Information	Facility Name: Black Creek Energy, LLC																																																																																			
	Street Address: 4940 Blackjack Plant Rd.																																																																																			
	City: Jay County: Santa Rosa State: FL Zip: 32565-9260																																																																																			
	Nature of Business: Oil and gas production																																																																																			
	Facility Owner/Operator: Black Creek Energy, LLC Phone: 601-431-5386																																																																																			
	Email: Mike Wetzel <mikew2859@gmail.com>																																																																																			
	Facility Contact (if different): Michael Wetzel Phone: 850-324-6271																																																																																			
	O/O Mailing Address: 140 Virginia Street, Suite 302																																																																																			
Well Data from File	City: Richmond County: N/A State: VA Zip: 23219																																																																																			
	Well Name & #: H. A. Singletary #13-N API No. 0911320112 PA No. 303042																																																																																			
	Well Type (see table): Producer State Permit: OG_659																																																																																			
	Latitude (°N): 30.8607852 Longitude (°W): -87.09871823 Elevation (ft):																																																																																			
	Injection Method (check applicable): ☐ Casing Injector; ☒ Tubing & Packer; ☐ Cemented Injection Tubing																																																																																			
	PBTD: 15955' ☐ Other: srfc csg 10 3/4" @4185'																																																																																			
	Total Depth (ft): 16103' Inner Casing Size (in): Tubing Size (in): Baker Packer Depth (ft): 15620'																																																																																			
	Inj. Zone: ☐ Open Hole; ☒ Perforated; Top(ft) 15876' Bottom(ft): 15935' Max. Injection Pressure (psig):																																																																																			
Field Measurements and Observations	Latitude (°N): 30.86068 Longitude (°W): -87.09872 Elevation (ft):																																																																																			
	EPA GPS ID: SX8123 Well Status (see table): NI If not Active, Reported Date Last Active:																																																																																			
	Nature of Injected Fluid(s) if any:																																																																																			
	General Condition of the Well Site:																																																																																			
	Notes & Comments (include discrepancies from database values): NI: Not an injection well																																																																																			
	This producer is on the operator's list, planned to be plugged and abandoned for final closure.																																																																																			
	Tubing gauge: 1200 psi																																																																																			
	Production gauge: unknown																																																																																			
	Surface gauge: 0 psi																																																																																			
	Mechanical Integrity test passed on 9/20/2021																																																																																			
See reverse for additional observations, comments and photo log
