TO: W. Sheehan
FROM: H. G. North
RE: 5K Asbestos Fibre

I suggest you handle the attached.

We have checked the matter out relative to the 100,000 lbs. which was shipped. Per Mr. John Toman, it would appear from the samples submitted by Plant 4 that the material had been wet. Mr. Len Winchester has informed me that to his knowledge the material was dry when shipped. Mr. Bob Kessler has checked the truck lines - material shipped in closed trailers and nothing noted by Plant 4 on the Bill Of Ladings at time of receipt.

I will contact Mr. Vince Labrecque for an evaluation of the remaining 25,000 lbs.

H. G. North
