Loren Johnson, Laboratory Director
Food and Drug Administration
1141 Central Parkway
Cincinnati, Ohio 45202

Dear Loren:

This is to confirm my phone conversation of September 17, 1970 with Richard Carr concerning your laboratory analyzing some milk samples for Aroclor 1254.

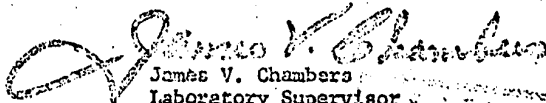

We are interested in generating some comparative analytical data as related to Aroclor 1254. This Division is finding, identifying, and quantitating the Aroclor compound in raw milk. However, because this laboratory is the only one involved with these finds, we thought it would be best to have ourselves checked on these finds. Therefore, we are asking your assistance to help us accomplish this objective.

We are appreciative of all your previous support and wish to thank you, in advance, for your attention and cooperation on this matter.

If there are any questions, please call me.

With best regards,

OHIO DEPARTMENT OF AGRICULTURE

James V. Chambers
Laboratory Supervisor
