Mr. Mark Wolfe
Research Director
Anaconda Wire & Cable Company
Sycamore, Illinois 60178

Dear Mr. Wolfe:

Thank you for arranging for me to visit with you and Mr. Metcalf on Friday, concerning trends and needs in communications cables. The discussions were most helpful to me in obtaining a better understanding of this industry and how Monsanto might make more of a contribution.

I hope that I am fortunate enough to visit with you again with some potential product which might be of value to you. Thanks again.

Yours truly,

Michael F. Baber
Project Manager
Commercial Development
