

Internal Correspondence

Date: March 3, 1986

To: Douglas P. Fraser

Copy: R. Burks, D. Keck, R. Petkash, R. Schier

From: John V. Motuza

Subject: MARION POWER SHOVEL - DBA BRAKES

This is to advise that effective immediately on all future orders entered by Marion Power Shovel, we must furnish non-asbestos friction material.

We may use up any asbestos material for spare parts for Marion, but on their new machines, the non-asbestos must be furnished.

If you have any questions, please contact the writer.

John V. Motuza
