

For **LOWER COST...
MORE EFFICIENT PUMPING**

SIER-BATH Screw Pumps and Gearex Pumps are made in a plant keyed to precision methods of gear manufacturing. Our engineers have a long background of experience specializing in the design of rotary pumps. As a result, the high quality of these pumps enables them to operate for long periods without maintenance. Their pulseless flow and vibrationless operation mean less wear on valves, couplings and other fittings. Pipes and joints remain tight. In every way, the Sier-Bath Screw and Gearex Pumps are constructed to render reliable and continuous service, with least possible maintenance. Write for detailed information.

man. Don Rosenblatt, chief metallurgist, American Foundry & Machine Co. is chosen vice-chairman. Dr H Edward Flandera, professor of metallurgy, University of Utah, is named secretary-treasurer. Executive committee also includes Dr John R Lewis, professor and head of metallurgical engineering, University of Utah; Hugh M Thomson, assistant chief engineer, Utah Oil Refining Co; A N Hopper, plant manager, Salt Lake City Works, Chicago Bridge & Iron Co; Robert J Proust, supervisor, metallurgical lab, Geneva Steel Co; A P Hochstetler, asst supt industrial relations, Geneva Steel Co; and W H Matheson, asst supt open hearth dept, Geneva Steel Co.

Savannah Electric & Power Co elects L C McClurkin, president, to replace Claude C Curtis. Having reached retirement age, he has resigned.

Theodore C Gams, consultant in industrial electronics, is appointed director of School of Industrial Technology, New York City.

Illinois Institute of Technology has elected to membership on the board of trustees Robert H Morse Jr, vice-president of Fairbanks, Morse & Co, and Ludwig Skog, senior partner of Sargent & Lundy, Chicago firm of consulting engineers.

OBITUARIES

Thomas R Warren, 45, senior stationary engineer at Municipal Bldg, Batavia, N. Y., died Sept. 27. He had been associated with the city for 35 years.

John D Fleming, 58, member of organic sales development department of Monsanto Chemical Co, died Oct 12 from a heart attack at his home in St Louis.

Dr William Roth Work, 67, assistant director of College of Engineering and Science, Carnegie Institute of Technology, Pittsburgh, Pa., died Oct 3.

Arthur H Wyman, 65, manager of Allis-Chalmers general machinery district sales office at Cleveland, Ohio, died Oct 5 in that city.

George Edward MacMannus, 68, electrical engineer, died Oct 5 at his home in West Hartford, Conn. He had retired last March from Federal Electric Products Co, Newark, N. J.

Henry C Balist, 62, stationary engineer for American Brewing Co, Rochester, N. Y., died in his home Sept 22.

Herbert J Hall Sr, 72, stationary engineer of Niagara Falls, N. Y., died Oct 4 after a short illness.

I E Wilson, 81, an engineer on power-plant construction of General Electric Co for 36 years, died Oct 10 at Somerville, Mass. He retired 16 years ago.

The *inside* story of outstanding performance

Gulfcresc is the only turbine oil that's **Alchlor-processed**.* This is an extra refining step. It makes Gulfcresc extra pure and extra efficient.

In Cylinder 1 you see the oil that will become Gulfcresc. It has already gone through the usual steps used in refining most other turbine oils—but has not yet been Alchlor-processed.*

In Cylinder 2 you see the part—approximately 15%—discarded by the Alchlor Process.* This is the part that, when allowed to remain in turbine oil, is most likely to oxidize, increase neutralization number, and form sludge, emulsifiers, and harmful acids.

In Cylinder 3 you see the finished Gulfcresc—the incomparably pure lubricating oil that gives outstanding performance and helps you keep steam turbine systems clean indefinitely. To make it even finer, special inhibitors are added to it—they give it still greater stability and protection against corrosion.

GULFCREST

is the only turbine oil that gets this **extra refining** *

Call in a Gulf Lubrication Engineer today and ask him to recommend the proper grade of Gulfcresc Oil to meet the specific requirements of your turbines. Write, wire, or phone your nearest Gulf office.

GULF OIL CORPORATION • GULF REFINING COMPANY

Division Sales Offices:

Boston • New York • Philadelphia • Pittsburgh • Atlanta
New Orleans • Houston • Louisville • Toledo

Gulf Oil Corporation, Gulf Refining Company
3800 Gulf Building, Pittsburgh 30, Pa.
Please send me, without obligation, a copy of your booklet
