Dear Has:

Enclosed is Interim Report 2, dated August 1, 1995. I delayed it a few days in order to determine more clearly the status of the data transfer from ENSR, specifically the master data tape. This issue was clarified in our phone conversation today with Dr. Whorton.

More importantly, a draft of our protocol is enclosed. This draft has been reviewed by our Expert Panel, and we have incorporated their suggestions. Their comments can be found in the section "Protocol review and sign-off sheet." We would welcome any comments or questions you or any of the panel members might have.

Finally, an invoice is also enclosed. I wish to thank you for the very prompt payment of our previous invoice. I also thank you for all the assistance you have provided with the data transfer problems, and the coordinating support for the state confidentiality agreements. As always, please do not hesitate to call if you have any questions.

Sincerely yours,

Kenneth A. Mundt, Ph.D.
