State Board of Health
February 17, 1961

Mr. L. A. Pechstein
Assistant Secretary
Philip Carey Manufacturing Company
Cincinnati 15, Ohio

Dear Mr. Pechstein:

This will acknowledge, with thanks, your letter of February 14, 1961, regarding the chemical composition of your product "Careytemp Insulation". The information you provided will be most helpful in our evaluation. As indicated all information will be held in strict confidence and used only to evaluate any potential health hazards associated with the use of this solvent.

We appreciate your fine cooperation in this matter.

Yours very truly,

Albert Edwards,
Industrial Hygiene Engineer

NOTE TO FILE

On 2/17/61 Mr. Edwards phoned and thanked me for my letter of February 14. He said the only ingredients we use in our Careytemp which is toxic is the asbestos fibre, and he asked that we furnish him the amount of fibre used in our formulation, either by weight or by volume.

He said the workmen had been sawing the material in a confined unventilated area, using no masks nor a dust collector on the saw. He said the complainants were our own contract department workers acting through the Indianapolis Local.
