SUBJ: EPA CONSULTANT VISIT TO ETHOXYLATION UNIT

VISTA

Based on a conversation with EPA staff working on the EO Intent to List project, we probably won't be visited by MRI. The agency was "unhappy" with the secrecy agreement we asked them to sign.

We can expect to receive a 114 dealing with short-term EO emissions from the ethoxylation process some time after the first of the year. It will be substantially similar to the EDC 114 I sent to Conrad.
