

ETHYL GASOLINE CORPORATION

CHRYSLER BUILDING
135 EAST 42ND STREET

NEW YORK May 18, 1934

**INTER-OFFICE
CORRESPONDENCE**

Dr. R. A. Kehoe,

Dear Dr. Kehoe:

Attached hereto is a copy of a letter from the Industrial Commission of the State of Illinois at Chicago which explains itself.

It is our thought to answer this letter somewhat as follows:

"Replying to your letter of May 16th, we are pleased to advise there has not been a single case of lead poisoning occur in the distribution of Ethyl Gasoline or lead treated gasoline. There has been considerable literature published on this subject and attached hereto is a reprint of a series of articles by Dr. Robert A. Kehoe which fully discusses the subject."

"Trusting this information is what you desire, we are"

Would you please advise us by return mail if such a reply meets with your approval.

Very truly yours,

W. M. Marshall

New York, N. Y.

Gentlemen:

We understand that you have made a study on the possibilities of lead poisoning in the handling of gasoline.

We are particularly interested in knowing what has resulted in your studies in the handling of Ethyl gas at retail pumps also in the wholesale handling of same.

Thanking you in advance for any information you can give me on the above subject, I remain

Very truly yours,

Industrial Commission of Illinois

J. D. Cronin
