The evaluations have not yet been published. I think where this has come from is page 80 in this report: [Poly- and perfluoroalkyl substances \(PFAS\): sources, pathways and environmental data - report \(publishing.service.gov.uk\)](https://publishing.service.gov.uk/poly-and-perfluoroalkyl-substances-pfas-sources-pathways-and-environmental-data-report)

We have also have been approached by a journalist from the Times and will be sending a response to them this afternoon.

Kind regards
[REDACTED]

Subject: EEA-NH4 dossier

Hi [REDACTED],

Has the EEA-NH4 been made public yet? We are aware that [REDACTED] discussed the work last April at a DEFRA meeting. The reason I am asking is that we have been contacted by a journalist who appears to be citing the EEA-NH4 evaluation dossier.

With best wishes,

[REDACTED]
