R.A. Kehoe. ✓

Gentlemen:-

I enclose herewith copy of a report, which I submitted to Mr. Dunn on June 22nd with the expectation that it would be approved by him before it was sent out to you for your comments. Mr. Dunn, because of the press of other business, has been unable to read this report as yet, and I am, therefore, sending it to you for criticism before he has finally approved it.

I shall be glad to have any suggestions from you before we submit it to Washington.

Yours very truly
CHICLE DEVELOPMENT COMPANY

PLEASE ADDRESS

TO THE COMPANY

June 22nd 1936

Mr. Charles Wesley Dunn,
608 Fifth Avenue
New York, N.Y.

Dear Mr. Dunn,

h herewith Parts One

Two of the report on the investigation and solution of the search for lead contamination in chicle. As I advised you before, Part Three, as planned, was to be prepared by Dr. Kehoe and was to cover the methods for the control of the lead content of chicle and for the removal of lead from chicle. I have advised you that the experiments covering the removal of lead from chicle are not yet completed and that this part of the report will have to be delayed. I think, however, we should divide this unfinished report into two further parts: the first, covering the methods for the control of the lead content in chicle, as now installed in the factories, and the second, covering the methods for the removal of lead from chicle.

I am, therefore, also enclosing Part Three "Methods for the Control of the Lead Content of Chicle in the Manufacturing Plants", which is the first portion of the report to be submitted by Dr. Kehoe. I would suggest, with your approval, the sending of this to the Government with Parts One and Two.

Yours very truly

CHICLE DEVELOPMENT COMPANY
