CC - Mr. Foley

Mr. Cummings;

At the request of Mr. Foley I am sending you the details of A.S.T.M. test D 6 - 30, which was recently used in modified form in determining loss on heating at 200°F on Arcolors 1248 and 1250. The modification consisted of maintaining oven temperature at 200°F instead of 163°C.
