Q All right. So during the course of a year, you may see thousands of patients?

A Yes.

Q So since 1981 when you last saw Mr. Vandergucht, you have seen 10,000 patients possibly?

A Possibly.

Q And you don't remember everything that happened with each patient, do you?

A I do not.

Q Doctor, how many patients have you seen during the course of your career who have had peritoneal mesothelioma?

A One.

Q And that was Mr. Vandergucht?

A That is correct.

Q Now, you were back in medical school back in the late '60s?

A '62 through '66.

Q '66. Did you have any discussions back in medical school about peritoneal mesothelioma?

A I have no recollection of that.
