Herman Hermen Claim

R. A. Bleich

Last week I had occasion to talk with the attorney who is handling the Herman Hermen claim for the Royal Indemnity Company.

He has asked for dismissal of the claim on the grounds that the Statute of Limitations had expired prior to filing a claim. As previously reported, he last worked for us in 1960, and a claim was not filed until September 1967.

The doctors' records all show that he was disabled due to coronary problems and not pulmonary.

The attorney stated it will probably be 60 or more days until the Industrial Accident Board makes a determination on the motion for dismissal.
