Dear Mr. Kwartnik:

In response to your recent request, I am enclosing copies of two form letters which describe the programs Monsanto instituted in late 1971-1972 to phase out sales and usage of our Therminol(R) FR series heat transfer fluids which contained polychlorinated biphenyls. (I apologize for the poor quality photo copies).

I hops this information fulfills your needs.

Sincerely,

John H. Craddock
