Good afternoon Mr. Cavagnaro,

Thank you for reaching out! Unfortunately the Administrator is out of town but of course appreciate you reaching out while in town. Wishing you safe travels!

Best,

Sydney

**Subject:** AdEdge Water Technologies

Dear Mr. Pruitt,

AdEdge is the recent recipient of the National Federal Laboratory Consortium technology transfer award with the EPA ORD group on biological technology for ammonia removal from

drinking water called NoMonia. By happenstance I need to be in Washington D.C. tomorrow and Friday and realize it is a bold request to see if you had just a few minutes to meet.

We are excited about how this technology will benefit small communities in the Midwest and the relationship of working with the EPA to bring cutting edge technology to the market. It's a great positive story and I would love to share a little bit about what is going on.

I can be reached either by email or on my cell at 770-356-8394.

Best Regards, Rich

Rich Cavagnaro
