AIA/20/1/16/HAS

21 November 1980

Dear Terry.

Criteria for Diagnosis

You will have seen Walter Smither's letter which refers to yours of 13 November 1980.

Since he had just returned from Denver I showed him your letter, and I felt you would agree with this. In the event he has been able to shed some light on the Johns-Manville suggested amendments.

I am of course still waiting for comments from Executive Committee members on the final draft - we have had a few more since from other members of the MAP, as you know.

We can then incorporate all these for a "final final" review (by post) by MAP members.

The Executive Committee will then decide whether the "Criteria" document will go out with AIA's imprimatur or be kept for use strictly within our industry as a reference and guide.

Yours ever  
Jimmy

Sir Neville Stack
