RE: MEDICAL SURVEILLANCE FOR ASBESTOS EXPOSED WORKERS

As you requested, I have listed the job classifications of employees whose jobs have had the potential for asbestos exposure above the action level of 0.1 fibers/cc 12 or more 8 hour shifts per year. Plant and departmental records should be reviewed to determine the names of people who hold or held those positions or who John-Doed into those jobs.

Mechanical Maintenance

- Fabricating molten metal Marinite shapes prior to 1975 March 01.

  Machinists
  Layout persons
  Carpenters

- Lining troughs with asbestos shorts--lumnite cement refractory (prior to 1973-06-01)

  Brickmasons
  Craft Helpers

- Lining furnaces with J. M. Superex insulation prior to 1973-06-01

  Brickmasons
  Craft Helpers
