June 17, 1968

SUBJECT: ANNUAL REVIEW - LEAD 1968

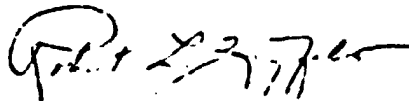

To Members of the Lead Industries Association, Inc.:

In the past the Annual Review of Lead in the preceding year has been sent to members in the form of a reprint of an article prepared by the Executive Vice President for Engineering and Mining Journal. This year for the first time it has been prepared strictly for publication in a booklet devoted specifically to the purpose, which enables both the text and statistics to be somewhat more comprehensive, and will probably be issued in similar form in future years. A copy of the Annual Review of Lead for 1968 is attached. We hope that you will find it informative and useful.

Also, in order to build up a mailing list of people who are interested in this type of publication, won't you please send us the names of associates, customers or other people whom you think might be interested in receiving this review now and in future years. We will mail it directly to them, with the statement that it is sent at your request.

If you wish additional copies, we can supply them to you in quantities up to ten free of charge and in larger quantities at 25¢ per copy.

Very truly yours,

Executive Vice President
