

1 Q Let me ask you some specific questions
2 then.

3 Are you aware of anywhere in the literature
4 of cases of mesothelioma being reported involving
5 teachers?

6 A There probably have been cases reported of
7 mesothelioma involving teachers, and these are
8 teachers that have not previously worked with
9 asbestos, but I don't recall those cases having been
10 reported. Probably they have been reported in the
11 literature.

12 Q What about farmers?

13 A Again, there are probably cases of
14 mesothelioma that have been reported in farmers who
15 have no documented asbestos exposure.

16 Q And secretaries?

17 MR. IGNATOWSKI: Objection.

18 THE COURT: Mr. Williams, the doctor has not
19 been offered, nor has he been certified, as a
20 state-of-the-art witness.

21 Why are you asking these questions?
