

1 garage that Mr. Wood worked at.

2 Those individuals' names are Elgia Butler
3 and Charles Carter. Mr. Carter is the mechanic who
4 worked on those brakes at the post office, and he will
5 tell you what his experience was working on brakes
6 around Mr. Wood.

7 Mr. Butler is not a brake mechanic, did not
8 work on brakes, but had the same job as Mr. Wood,
9 garage man/mechanic/driver and he will tell you what
10 Mr. Wood's job duties were, what his job duties were
11 and what the position of the garage was that caused
12 them to breathe the asbestos dust.

13 The proof that you will hear in Mr. Wood's
14 case is that he was exposed to asbestos dust from Ford
15 brakes at the U.S. Post Office when he started working
16 there in 1948. That is all of the proof of asbestos
17 exposure that you will hear concerning Mr. Wood.

18 We will also have Dr. Gary Hill testify.
19 Dr. Gary Hill is a Chief of Pathology at Johns Hopkins
20 Bayview which used to be Francis Scott Key Medical
21 Center, and Dr. Hill also looked at Mr. Wood's
