4. If you answer yes to 2(b) and/or 3(b), please provide the following information in the order listed for each identifiable group of dryers. To facilitate review of the information, please provide this information in charts or by other means that will relate each item of information to a particular identifiable group of dryers.

a. Identification number (e.g. brand name, style, model number, and/or production date code number.)

b. Specific dates during which your firm manufactured, imported and/or labeled the dryers and the approximate number of dryers manufactured, imported and/or labeled each date or time period.

c. Specific distribution of where the asbestos materials are located in the dryers (e.g. nozzle lining, wire insulation, or motor insulation).

d. If you are the importer and/or private labeler, the name and address of the manufacturer.

SEE CHART ATTACHED AS EXHIBIT A.

5. a. Have asbestos materials been used in dryers your firm manufactured, imported or labeled more than ten years ago?

No.

b. Are these asbestos materials in the nozzle lining, wire insulation, or motor insulation or other locations where asbestos is exposed to the dryer's air stream?

Not applicable.

6. a. Has your firm or anyone on its behalf conducted tests on your dryers to determine whether respirable asbestos in your dryers is emitted into the air stream or any other tests related to the use of asbestos in dryers?

Yes.

b. Do you know of any other tests or studies regarding the use of asbestos in hair dryers?

None other than the 3/19/79 EMV Associates Study.

c. Please provide the name, address, and telephone number of a person in your firm with whom the Commissions Staff could discuss these studies or testing of asbestos in hair dryers in general.
