Subject Safety Program - St. Helens

The following is the present status of the Accident Prevention Program at St. Helens as a result of a visit made to the plant on April 19, 1967:

PLAINTIFF'S EXHIBIT
KG-234

OVERALL COMPANY OBJECTIVES

1. Supervisory Training:
   Plans are being made to have the TIE conduct a training course. If this does not work out it is suggested that the 7 film series of the NSC be presented.

2. Job Safety Analysis:
   All in effect.

3. Visual Aids:
   In effect.

4. Short Term Contest:
   To start May 1st.

5. Slide Series:
   To be completed by June 30.

6. Plant Inspections:
   In effect.

7. Brigade Drills:
   In effect.

8. Review Board:
   In effect.

9. Plant Safety Recommendations:
   In effect

PLANT OBJECTIVES

1. Mobile Training Program:
   Now being planned.

2. Sound Survey:
   Completed and in effect.

3. Red Cross Training:
   In effect - plant has own instructor. New course in July.

4. Off the Job Safety:
   Included in plant newsletter, etc.

5. JSA for Office:
   To be completed by September 1st.

6. Require compliance with use of eye protection when using steel strapping and also keep "Men at Work" sign on railroad cars.

7. Require use of respirator with Bureau of Mines approved respirator for asbestos when using asbestos in plant operations.
