Thanks!

Missed seeing you last week. Saw Meg all too briefly over the weekend. Glad you were able to meet Aurelia!

Subject: FINAL Policy Council letter on Mitigation and Energy Burdens

Good morning Policy Council members, it was very nice seeing so many of you last week. As you may remember, at last week's meeting we discussed the attached letter to Secretary Zinke on mitigation and burdens to energy development, specifically in response to the recent Executive Order 13873 and Secretarial Order 3349. Many partner organizations signed the letter, and we sent it up to DOI last week; others should certainly feel free to share widely with relevant contacts. Attached for your files is a final version of that letter with all signatories included. Thanks again.

Steve
