		R. T. Hammann	M. A. Riddle
		W. G. Howe	J. G. Trafton
TO :	S. Davenport	W. R. Johnson	D. R. Wise
	J. Garton		G. L. Wofford
	P. D. Johnson		
	R. L. Whitehead		

This was the regular monthly meeting.

Building Evacuation Routes and Other Emergency Procedures

Progress is being made on the items discussed at the June 21 meeting. The major concern is communication between the Quality Assurance Lab and the personnel in the AN-PSBU during an emergency in either of those areas. A meeting will be arranged between the Monomers Lab and Technology personnel to discuss this concern.

Lab Audits

Only one unit lab has requested an audit. A special checklist is being prepared.

Failure of Plastic Acetone Containers

A TCSC Alert has been drafted. The plastic containers will be replaced with smaller plastic ones or, better yet, with stainless steel safety cans.

The next meeting will be on August 18 at 0830 hr in Conference Room 8.
