AN UNUSUALLY impressive group of wins and high scores was turned in, during the 1927 N. R. A. Gallery Rifle and Pistol Matches, by shooters using U. S. .22 N. R. A. long-rifle cartridges.

Among the individuals who distinguished themselves were Henry C. Wright of Fresno, Calif., Granville B. Ellis of Northfield, Vt., and Sgt. Harry C. Williams of Monterey Park, Calif. Wright came within one point of a perfect score when he annexed the Individual Gallery Rifle Championship at 75 feet with 599 x 600. He placed first also in the 75-foot Individual Standing Match, scoring 392 x 400. Ellis captured the Individual Gallery Championship at 50 feet (score: 598 x 600) as well as the Individual Collegiate Championship (score: 597 x 600). Sgt. Williams won three matches—Rapid Fire Pistol at 75 feet, Individual Military Championship of the 9th Corps Area at 50 feet and the Division B National Championship (Shoot-Off) at 50 feet.

Another sterling performance was that of Mary Ward of Chicago. Competing against the best boy marksmen the schools had to offer, Miss Ward finished second in the Individual Scholastic Championship at 50 feet. She scored 398 x 400 with 32 x's.

Many club and team matches were also taken with U. S. .22 N. R. A.'s as shown on this page. The shooting of the team from Company H, 160th Infantry, National Guard, Pasadena, Calif., was particularly noteworthy. This team won a number of matches. Incidentally it was a team from Company H that finished second in the U. S. R. A. Indoor Matches this year when a new five-man team record of 14,360 x 15,000 was established by representatives of the Springfield (Mass.) Revolver Club. Both the Springfield team and Company H team used U. S. .22 N. R. A.'s.
