

APPLICATION FOR PROPERTY APPROPRIATION

.....8-4-.....1976.

....Capco-Ragland..(7909)..... Plant
or Unit

DESCRIPTION:

Subject: Safety Equipment - Ragland Plant

The items listed on attached sheet are necessary
for OSHA compliance.

If work contemplates replacement or improvement of structures or equipment now
in place, insert:-1.Original cost \$..... 2.Date erected or installed.....

Total estimated cost (FORM 302A ATTACHED) \$..16,000.00..
Estimated annual net saving \$... * *
Estimated completion date ..12.. 76..

ADVANTAGES TO BE DERIVED:

* * The stairs, safety guards, Dillion switches, etc., were not
a part of the original plant engineering, and while some possible
labor savings may result during clean-up period it isn't possible to
establish payback on the majority of these items. They are strictly
safety and insurance requirements.

			*					
						Total		16,417.00
Many items on this Safety Appropriation are similar to the Van Buren plant Safety Appropriation - VB-203 - with pricing obtained by calling the Vendors for up-to-date quotations. On all fabricated catwalks and platforms, a specification will be forwarded with prints to obtain 3 or more quotes.								
* Many items are stock delivery and will be installed As Soon As Possible after approval of appropriation. Complete appropriation will be completed in 1976.
