Re: Expert Testimony in:
Nevada Power Company v. Monsanto Company, et al.

Dear Dr. Andersen,

I am an attorney for Nevada Power and am currently reviewing materials which Roberta Straub has provided to me regarding your expertise and involvement in this case. Attached please find a rough outline of your expected testimony in this case. I am also faxing a copy of a pending amended complaint which if approved by the court will add more detail and increase the formal damages demand to include equipment containing any level of PCBs.

Unfortunately, I do not have a strong economics background and I have not been updated on the status of any work you have already done on this case. Therefore, I would appreciate as much input as you have time for. As you are hopefully aware of, we are required to submit a statement to the defendants disclosing the areas of your testimony this Friday, July 30, 1993. I am sure you have prepared similar statements for other cases in which you have testified.

I will call you tomorrow morning or at your convenience for your suggested changes. You may also simply fax a response with edits and additions if that is preferable. I will then convert the outline we develop into a narrative format.

In addition, to my knowledge, we have not received your signed retainer agreement for this case. Please let me know if you have questions regarding the agreement or other matters in this case.
