

November 5, 1921.

Mr. Thomas S. Brown Jr.,  
Eagle-Picher Lead Company,  
Chicago, Ill.

Dear Sir:

I wish to acknowledge your letter of November 2 and the enclosures of a check for \$3,141.13, which you state is your company's portion of the subscription to the three years' investigation of the effects of lead upon health. I have sent the check to the University Treasurer to be deposited with this fund for use for that purpose, and I wish to thank you and your company for it.

The work is going on very actively with a group of very well trained and intelligent men at it, and I think that there is every prospect that it will be well done and I hope that it will yield information of value in connection with the effects of lead and the recognition and prevention of them.

Sincerely yours,
