September 8, 1971

Mr. Rollie Garcia
Monsanto Company
P.O. Box 5444-Springside Drive
Akron, Ohio 44313

Dear Mr. Garcia:

This is to confirm our phone conversation of September 7th, 1971, where in we reported a possible contamination problem of a paint formulation containing Arcolors..

As I related in our conversation, a Mr. Rex Autery of the Bloomfield Silo Company located in Bloomfield, Indiana called our Office Manager, Mr. Larry Ryan, and reported that their silo paint which contains Arcolors have caused some milk contamination in the State of Kentucky.

According to Mr. Rex Autery the Kentucky Board of Health took samples of their paint on the wall of a silo and has indicated that this paint has caused contamination in milk which they blame on the Arcolor content of the paint.

Mr. Autery has requested that we contact you and request some technical assistance for him to disprove this claim. I contacted Mr. Autery and indicated that I had talked to you and that you in turn would be in touch with him to discuss the problem with him. You can contact Mr. Autery by phoning 812-384-4154 or if you desire to send a representative to Bloomfield, Indiana, please call him for an appointment. Your earliest assistance on this complaint will be greatly appreciated by Mr. Autery and if we can lend an additional assistance in any way please do not hesitate to call upon us.

If you need additional information or help in any way please let us know.

Yours truly,

HOOSIER SOLVENTS & CHEMICALS CORPORATION
