The data shown in this bulletin has been supplied by sources considered to be reliable. While we believe that such information is correct, the Institute cannot and does not accept any responsibility or liability for errors or omissions, or harm resulting therefrom.

The data shown in this bulletin indicates dimensions only and in no way refers to quality of any materials that may be embodied in the product or particular application involved, and moreover, SINCE FIELD CONDITIONS AND OTHER FACTS MAY NECESSARILY VARY FROM ONE APPLICATION TO ANOTHER, FRICTION MATERIALS SUPPLIERS AND INSTALLERS SHOULD RELY ULTIMATELY AND SOLELY UPON THEIR OWN EXPERTISE AND JUDGMENT AS TO QUALITY AND DIMENSIONAL SIZE. Under no circumstances should replacement items be used when they do not appear to fit, nor be "forced" to fit, nor be modified in the field instead of obtaining a proper sized item from a supplier. If such items are modified in the field to fit, the Institute specifically disclaims all liability and responsibility for any harm resulting therefrom.

If any error or omission is noted in this bulletin, it should be reported immediately to the Friction Materials Standards Institute, Inc., 588 Monroe Turnpike, Monroe, Connecticut 06468.
