

Shell Oil Company • Shell Chemical Company
Interoffice Memorandum

MARCH 28, 1980

PLAINTIFF'S EXHIBIT

SH-2343

FROM: SENIOR INDUSTRIAL HYGIENIST

TO: J. D. LEE

SUBJECT: SUBSTITUTE ABRASIVES

"Apache-Blast" and "Star Blast" have been tested and approved as substitute abrasives for sand at DPMC. The approval is based on a toxicity review by Industrial Hygiene and field testing by Maintenance. There are probably other suitable substitute abrasives. Other Shell locations use materials called "Kleen-blast" and "Stan-Blast". If additional substitutes are desirable, please contact me for the industrial hygiene review. Technical review can be arranged through Larry King with the appropriate maintenance organization.

A handwritten signature in cursive script, reading "J. D. Ransdell".
