Subject: Environment Agency Commissioned Questionnaire on PFAS

Follow Up Flag: Follow up
Flag Status: Flagged

Dear [REDACTED]

I hope all is good with you.

We have been made aware through our Japanese colleagues that Environment Agency commissioned work to develop socioeconomic analysis to prepare for a potential future restriction on dispersive uses of PFAS under UK REACH. This is done by consultants, EFTEC and WCA. WCA consultant contacted one of the industrial associations asking for information on the PFAS in the following dispersive applications to be sent by the 13th of November:

1. Surface coatings (including packaging)
2. Paints, printing inks and varnishes
3. Coatings on textiles, upholstery, leather, apparel, and carpets (TULAC)
4. Cleaning agents, varnishes, polishes, and waxes
5. Lubricants
6. Drilling fluids and mining
7. Cosmetics
8. Personal protective equipment

Are you aware of such questionnaire and work being commissioned and if so, would you be able to share more information with us?

[REDACTED] and I are available to have a quick call this week or next week. We have availabilities on Thursday the 2nd of November 13:00-13:30, Friday the 3rd of November anytime after 12:00 or next Tuesday the 7th of November in the morning until 08:00-10:00 and 11:00-12:00 for a quick call. Please let me know if any of those times work for you.

Looking forward to hearing from you.

With best wishes

AGC Chemicals Europe, Ltd.
