

A PLANE IS KNOWN BY THE MARKING IT CARRIES

Quality Lead Pipe

is known by the
marking it bears

It pays to look for this mark of Identification

Now quality in lead pipe bears the label of quality—National Lead pipe is marked every few inches so that you and other buyers can always be sure of getting a high quality dependable product, of correct wall thickness, of proper weight per foot.

Your experience has undoubtedly proved that it pays to use none but the finest materials for high class installations. Quality lead pipe gives trouble-free service throughout its long life. Trouble-free service! That's what customers want—and that's what

quality lead pipe gives them.

Plumbers also have other reasons for using lead pipe: its flexibility—the ease with which it is stored, handled and installed—its adaptability to varying conditions—its exceptional corrosion-resistance. Lead pipe can never rust—can never cause rust-clogged lines and rust-tinted water.

For those customers who want the best, use National Lead pipe. There are bigger profits and a bigger reputation in quality lead pipe jobs.

LEAD PIPE

NATIONAL LEAD COMPANY

New York, Baltimore, Buffalo, Chicago, Cincinnati, Cleveland, St. Louis; National-Boston Lead Co., Boston; Georgia Lead Co., Atlanta; Gibson & Price Co., Cleveland; National Lead & Oil Co., of Pennsylvania, Pittsburgh; John T. Lewis & Bros. Co., Philadelphia.

The Dutch Boy trade-mark on solder is also a guarantee of uniformity and dependability. Since every bar, every ingot is numbered to denote the composition, you can be sure of getting the same kind every time you buy. There's a grade of Dutch Boy Solder for every soldering purpose... including wiring.
