**MESSAGE FOLLOWS:**

Dear Connie

GEON 87697

For their assessment, NATEC need to know the quantitative level of each constituent of Mark 3705, Mark 1500 and Glycolube 740.

Can this information be provided?

Kind regards

Yours sincerely

C P Patrick, PhD  
Regulatory Affairs

Connie - please also provide level  
of each constituent in  
~~85367~~ - 4302  
Component 85367-4302, made  
up of polyvinyl chloride,  
epoxidized linseed oil, and  
Ultramarine Blue.

Thanks & regards.

13 April 1992.
