

NEW JERSEY PROCESS PLANT SAVES NEW FEED PUMP COST

Expansion plans called for a new boiler, and the Chief Engineer thought he'd need a new feed pump too. Pumps on hand — two 10 x 6 x 10's — often needed repairs to meet existing demand. Leaking valves kept them below capacity most of the time. He tried Sims Pump Valves before the new installation was completed and found, even at slower speeds, his pumps still supplied all the water necessary. When the new boiler was put on the line, the same pumps with Sims Valves carried the load easily.

Three years later the Chief said, "Sims Valves were a good investment." They were — but he couldn't lose any more. Sims Valves were guaranteed to give him better performance — complete satisfaction.

See how Sims valves can help with your pump problems. Carried in stock to fit over 40 different makes of reciprocating pumps — and hundreds of sizes — they'll fit your pumps — improve performance. Free catalog shows how.

PANTOGRAPHIC MILLING OF SPIRALS ON METALS AND PLASTICS

Rapidly done by unskilled labor

with NEW HERMES Engravo-graph

Write for Literature — Catalog H-18 Bench Type Model (weight 200 lbs.)
Portable Model 1M also available

Production: 6" brass spiral with 1/2" x 1/2" groove cut from 3 times larger template
Time: 32 units per hour

NEW HERMES, INC., 13-19 University Place, N. Y. 3
Representatives in all principal cities. Canada—339 St. James St., Montreal

The PROOF of the PACKING ... is in the TESTING

Palmetto Pyramid: 17 to 7 — At the Canton Drop Forgings and Mfg. Co., a 5000 lb. Steam Drop Hammer was used to compare Palmetto Pyramid #2500 with a conventional square packing. Results: 24 lbs. of square packing were used in 7 weeks. After the initial packing — rings were added 2 or 3 at a time. This means approximately, 3 complete sets of square packings in 7 weeks.

ONE SET OF PYRAMID #2500
(NO RINGS ADDED) LASTED 17 WEEKS!

PALMETTO PYRAMID

A combination of Strength and Adaptability. Made of endlessly folded fabric, it can't split or fray; being molded, it is much denser and more wear resistant than conventional packings; asbestos-reinforced, it can withstand temperatures of 600° F.; patterned on a square, each ring provides a solid base for the one above. This strength, combined with the flexibility of Palmetto Pyramid's design, provides the formula for real heavyweight service.

FOUR WAYS FLEXIBLE

1. Single-line contact — facilitates instant response to pressure changes.
 2. Lip curve — provides free entrance for pressure medium, assures positive sealing action and thorough lubrication.
 3. Lateral surface — is largely sealing surface. Means fewer rings — less friction — longer life.
 4. Automatic sealing — means tighter sealing with increasing pressure. But no binding — for adjustment is self compensating through internal pressure.
- Palmetto Pyramid not only can take it, it can take it longer. Because it rides with the punches. Send for catalog PC-102 covering complete Palmetto line.

USG Quality Cast-Case Gauges

UNITED STATES
DIVISION OF
AMERICAN MACHINE AND
METALS, INC.
Sellersville, Pa.

When buying gauges ask for USG... where a most diversified stock awaits your selection. USG Gauges are stocked for your convenience. You can order any of a wide variety of instruments—233 types; dial sizes, and size ranges—without delay. Many of these gauges are obtainable immediately from the local stock of distributors of USG Gauges in principal cities throughout the United States. Or they may be ordered through your USG distributor directly from factory stock at Sellersville, Pa. Take advantage of this fast delivery service. Call the distributor of USG Gauges in your locality today for information on gauges.
