MONSANTO CHEMICALS LIMITED

TO D.V.M. Hardy AT ..... DATE 29.6.64. REF. SSCSR/NJB/JJ

FROM N.J. Broomfield AT LONDON SUBJECT. PERTEC LTD., AYLESBURY

AROCLOR

I have no doubt that you will remember that, early last year, you were kind enough to help us out with an enquiry on the toxicity of Aroclor as used in a process by Hazel, Watson & Viney.

They have now written to us again for our comments on the relative hazards of hot melt adhesives based on the solid Aroclor as opposed to the liquid Aroclor which they are using at present.

I wonder if you could let me have some comments on this.

N.J. Broomfield
