CLINTON H. CRANE, PRESIDENT
F. H. BROWNELL, VICE PRESIDENT
F. M. CARTER, VICE PRESIDENT
FELIX EDGAR WORMSER, SECRETARY AND
TREASURER

June 28, 1937.

AIR MAIL

Dr. Robert A. Kehoe,
University of Cincinnati,
Cincinnati, Ohio.

Dear Dr. Kehoe:

I took the liberty of showing your interesting comments on Professor Hanzlik's paper to Mr. W. P. Fuller, Jr., of San Francisco, President of the W. P. Fuller & Company, and a member of our Association. Mr. Fuller is one of the leading citizens of San Francisco and is one of the supporters of the prospective Stanford University Industrial Hygiene Institute.

Mr. Fuller was greatly interested in your observations. He writes me that he is a close friend of Dr. L. R. Chandler, Dean of Stanford University School of Medicine, and would like to show the Dean, confidentially, a copy of your letter. May I have your permission for him to do so? I think this would be doing Stanford a good turn. It should help a lot in bringing about greater accuracy in some of Stanford's toxicological papers at any rate.

With kindest regards,

Cordially yours,

F. E. Wormser
Secretary.
