To: Pat Conroy

We experienced an O.S.H.A. health and safety inspection at the Westinghouse TVA Gallatin project on May 23 and 24. We recently received citations resulting from the safety inspection and on June 27, we received the attached citations from the health inspection. Normally, the inspection is coordinated and you only receive one set of citations.

I have communicated the inspection information and citation to the Westinghouse Corporate Safety and Legal Departments. In addition, we arranged an informal conference with O.S.H.A. on July 2 to discuss the information. I will keep you informed.
