

1 more effective?

2 A From practical terms, it is necessary.

3 Q You also talked this morning, Doctor, about
4 your research, and the research of others, into the
5 effects of asbestos on chromosomes.

6 A Yes, sir.

7 Q Just so I am clear, those experiments were
8 obviously done in a lab, right?

9 A Yes, sir.

10 Q We don't experiment on humans, live humans
11 obviously, right?

12 A Not intact living people, yes.

13 Q So am I correct, then, that what you
14 basically did during your research was introduce raw
15 asbestos fibers into the mesothelial cells in a dish
16 in a lab?

17 A Yes, sir.

18 Q When you did that, were you introducing just
19 raw fibers or were you introducing actual asbestos-
20 containing products into the mesothelial cells?

21 A These were fibers, raw fibers.
