Dear Mr. Keller:

Subject: "Working With Asbestos" Film # 2

Replying to your letter requesting return of the above film. It was returned on July 30, 1979, and a copy of the receipt is enclosed.

It was an excellent film and we did purchase one.

I do hope you will be able to locate the loaned copy. Thank you.

Sincerely,

Phyllis A. Feddersen
Industrial Hygienist

Dear Ms. Feddersen:

On June 27, 1979 we sent our Film presentation "Working with Asbestos" for you to use in your training program.

We get many requests for these films for training purposes, and we have only two copies to loan. Could you please reply stating how much longer you will be needing this film, or if you have completed your program, return the film to me.

If you care to purchase a copy of the film for permanent use in your company, they may be purchased from:

Filmservice Labs
6327 Santa Monica Blvd.
Hollywood, Ca. 90038

Attention: Mr. Gil Scott

Phone: (213) 464-5141

The cost of these films is approximately $125.00.

We hope the film has been helpful to you in your program.

Yours very truly,

D.M. Kelleher

Dear Customer:

RE: EMPLOYEE EDUCATION PROGRAM ON ASBESTOS HEALTH CONCERNS
SLIDE PRESENTATION - WORKING WITH ASBESTOS

In an effort to upgrade employee education programs on the health concerns related to exposure to asbestos fiber, we are making the accompanying slide presentation available to our customers in order for them to make presentations to their employees who are or might be exposed to airborne concentrations of asbestos fiber.

The program consists of a slide tray containing 65 slides and a prerecorded cassette tape. The tape has been prepared so it can be used to cue an operator to change slides. Also a complete script is provided so the presentation can be given live or adapted to local needs. Further details on using the program are contained in the Program Guide. Please review the guide as soon as possible.

It is our goal that every employee who is exposed or might be exposed to asbestos fiber during his or her work be shown this program as soon as possible after its receipt. In addition, every new employee should be shown the program, and every employee should see the program at least once a year thereafter.

In addition to employees who work with asbestos, it is important to arrange showings for the employees of your customers who work with products containing asbestos.

We urge that you keep a record of every employee who attends this health hazard training program, and that you arrange to have proof of such training included in the employee's personnel record.

PRODUCED
JM - 83

Additional material has been provided with this program to alert you to other training aids and background material which may be of value to you and your associates in insuring that every employee who works with asbestos is aware of the possible health risks and how to eliminate them.

If you have any questions about the use of this program, or if you need any assistance whatsoever, please contact your local J-M representative.

Very truly yours,

James F. Reis
