Claims Manager

Re: Redacted

Dear Bill:

I am enclosing a copy of a letter from the Liberty Mutual Loss Prevention Representative in Oakland to our Plant Safety Supervisor there. This letter concerns the above Workmen's Compensation file.

In checking our records, we note that the medical specialist's report, which was to follow his tour of our Plant on June 12, is still out. According to the enclosed letter, an Industrial Hygienist from Liberty Mutual may also be conducting a survey of the chemical exposures at the Oakland Plant.

We thought this would be an appropriate time to mention once again that we are interested in all of Liberty Mutual's findings with respect to the Brownlee case.

Very truly yours,

THE SHERWIN-WILLIAMS COMPANY

Jack D. Kull, Jr., Staff Assistant

INSURANCE

JUN 27 1973

Dear Jim:

On June 15th we met to discuss chemicals both solid and in-solvent that
Redacted was exposed prior to his illness.

The information obtained from you and your supervisor will be turned over as I indicated, to our Industrial Hygienist for review. In all probability he will want to make some measurements of chemical exposure in your lacquer department. In general, such a survey will be beneficial to determining possible health hazards for workers in the department as well as adding information to the cause and effect of the Brownlee case.

I will contact you after our Industrial Hygienist has indicated to me what he would like to do.

Sincerely,

Jim Brown
